

JOEL STEFANO PREMIER

Senior Product Designer | UX Strategy, Design Systems & Accessibility

Irving, TX | +1 (214) 243-4649 | jojo.s.1er@gmail.com

Portfolio: <https://joel-premier-portfolio.vercel.app>

PROFESSIONAL SUMMARY

Senior Product Designer with 10+ years of experience shaping end-to-end digital experiences across e-commerce, healthcare, finance, travel, and operations. Combines product thinking, UX strategy, interaction design, design systems, accessibility, and data-informed iteration to simplify complex journeys and improve product outcomes. Experienced partnering with product, engineering, analytics, compliance, content, and operations teams to deliver scalable, user-centered solutions across web, responsive / adaptive web and mobile experiences.

CORE SKILLS & TOOLS

Design: UX Strategy | End-to-End Product Design | Interaction Design | Information Architecture | Journey Mapping | Wireframing | Prototyping | Usability Testing | Design Systems | Accessibility (WCAG 2.1/2.2) | Web & Mobile

Research: User Research | Behavioral Analytics | Qualtrics | FullStory | Hotjar | Mixpanel

Tools: Figma | Sketch | Miro | Jira | Confluence | Notion

Development: React | TypeScript | Tailwind CSS | Vite (implementation support)

AI Workflow: Claude | Figma AI | UX Pilot | Cursor

PROFESSIONAL EXPERIENCE

Jillamy, Inc. | **In-House Product Designer** | **Front-End Implementation Support**

Nov 2025 – Present

Mesquite, TX

- Acting as the sole Product Designer leading the end-to-end design and delivery of JIM (Jillamy Inventory & Ops Portal) – a warehouse operations platform spanning inventory, receiving, picking, packing, and shipping workflows across multiple sites.
- Translating operational needs into UX requirements, user flows, edge cases, acceptance criteria, and error-reduction patterns driving measurable improvements in execution speed and process reliability.
- Extending design leadership into front-end implementation (React, TypeScript, Tailwind, and Vite) to close the gap between design intent and shipped product, delivering role-based UI, normalized SKU search, and audit-grade event logging to reduce counting, picking, packing and shipping errors.

Ulta Beauty | **Senior Product Designer**

Nov 2022 – Sep 2025

Remote

- Led end-to-end product design for Ulta's web and responsive e-commerce journey, owning core shopping experiences across search, product listing pages (PLP), product detail pages (PDP), cart, checkout, and product recommendation flows.
- Leveraged research, analytics, and customer behavior insights to rework information architecture and product discovery flows, improving findability, reducing friction by 22%, and contributing to a 17% increase in conversions.
- Redesigned key shopping interactions including navigation, filtering, sorting, add-to-cart, cart management, checkout flow, and error/empty states grounded in FullStory behavioral insights and A/B testing.
- Built and maintained scalable Figma design system patterns for web and responsive experiences, improving cross-team consistency and accelerating engineering handoff.

Tractor Supply Company | User Experience Designer

Aug 2021 – Oct 2022

Remote

- Translated a Nielsen Norman Group (NN/g) UX audit into a prioritized roadmap for web and mobile improvements, turning research-backed recommendations into actionable design work.
- Redesigned PDP, PLP, and cart experiences based on NN/g audit findings, applying usability and personalization improvements that strengthened the end-to-end shopping experience.
- Led the migration of core design system components from Adobe XD to Figma, rebuilding buttons, toggles, tooltips, pagination, and reusable UI patterns to improve team efficiency and design consistency.

CVS Health / Aetna | Senior UX Strategist (Medicare)

Apr 2019 – Jul 2021

Remote

- Designed and improved the Shop, Buy, and Enroll experience for Medicare-eligible users (65+), using usability testing to simplify plan comparison, selection, and enrollment for users with varying levels of digital confidence.
- Strengthened accessibility and usability through improvements to readability, content hierarchy, interaction clarity, supporting WCAG compliance and alignment with HIPAA and Medicare requirements.
- Used Miro to support research synthesis, collaborative workshops, personas and journey mapping sessions with Product, Content, and Compliance stakeholders.
- Iteratively refined information architecture and enrollment flows, driving measurable improvements in plan selection completion rates and user comprehension across a highly regulated experience.

American Airlines | Senior Information Architect

Apr 2014 – Sep 2018

Fort Worth, TX

- Led information architecture across aa.com, mobile, and airport kiosks, defining user flows, wireframes, IA specifications, and interaction requirements for complex travel and booking journeys.
- Redesigned and documented Review & Pay and Finish booking steps, standardizing information hierarchy, state handling, and page structure to reduce traveler confusion and platform inconsistency.
- Led IA for Airside Mobile initiatives supporting passenger re-entry workflows, mapping end-to-end journeys and defining step-by-step interactions to support faster, clearer completion in time-sensitive airport contexts.
- Led information architecture for a GDPR request portal for European customers and for WePay integration on aa.com China, translating compliance and localization requirements into clear, consistent user flows.
