

JOEL STEFANO PREMIER

Senior Product Designer | B2B SaaS, Complex Journeys & Conversion Growth

Irving, TX | +1 (214) 243-4649 | jojo.s.1er@gmail.com

Portfolio: <https://joel-premier-portfolio.vercel.app>

PROFESSIONAL SUMMARY

Senior Product Designer with 10+ years shaping high-stakes digital journeys across B2B SaaS, e-commerce, healthcare, and travel. Specializes in turning complex operations into clear, measurable, accessible experiences that drive conversion, reduce friction for customers, and scale consistently across teams. Deep strength in discovery, information architecture, interaction design, and design systems, with a track record of partnering closely with product, engineering, analytics, and compliance to ship outcomes, not just artifacts.

CORE COMPETENCIES

Product Design: End-to-End Product Design, UX Strategy, Interaction Design, Information Architecture, Journey Mapping, Wireframing, Prototyping, Usability Testing

Growth & Conversion: Funnel Optimization, A/B Testing, Behavioral Analytics, Search & Discovery, Cart & Checkout, Onboarding & Activation

Design Systems & Accessibility: Component Libraries, Design Tokens, Pattern Documentation, WCAG 2.1 / 2.2

Research & Analytics: User Research, Usability Testing, FullStory, Hotjar, Mixpanel, Qualtrics

Collaboration: Product Management, Engineering, Analytics, Compliance, Content, Operations

Tools: Figma, Sketch, Miro, Jira, Confluence, Notion

EDUCATION

M.A. Design Management – Savannah College of Art and Design

B.A. Digital Recording Arts – New England Institute of Technology

A.S. Web and Multimedia Technology – New England Institute of Technology

PROFESSIONAL EXPERIENCE

Senior Product Designer

Nov 2025 – Present

Jillamy, Inc. – Mesquite, TX

- Sole Product Designer for JIM (Jillamy Inventory & Ops Portal), a B2B operator platform managing inventory, receiving, picking, packing, and shipping across multiple warehouse sites.
- Own end-to-end product design: user research with warehouse associates, supervisors, and operations leads; journey mapping across high-volume workflows; interaction design for role-based task completion; and usability validation against real operational scenarios.
- Designed error-reduction patterns, confirmation states, normalized SKU search, and audit-grade event logging that measurably reduced miscounts, mis-picks, and mis-ships in high-volume operational flows.
- Established the product's first design system and interaction standards, improving consistency, usability, and scalability across every operational module.

Senior Product Designer

Nov 2022 – Sep 2025

Ulta Beauty – Remote

- Led end-to-end product design for Ulta Beauty core shopping journey across web and responsive, owning search, PLP, PDP, cart, checkout, and product recommendation experiences serving millions of monthly shoppers.
- Reworked information architecture and product discovery flows using FullStory behavioral data, A/B testing, and customer research, contributing to a 17% lift in conversion on redesigned flows and materially reducing drop-off between discovery and cart.
- Redesigned high-traffic interactions (navigation, filtering, sorting, add-to-cart, cart management, checkout, error and empty states), standardizing patterns that helped shoppers' complete tasks faster with fewer dead-ends.
- Built and maintained scalable Figma design system patterns for web and mobile, improving cross-team consistency, reducing one-off components, and accelerating engineering handoff.
- Partnered daily with product, engineering, analytics, content, and merchandising to translate business goals into measurable, shippable design work.

User Experience Designer

Aug 2021 – Oct 2022

Tractor Supply Company – Remote

- Translated a Nielsen Norman Group UX audit into a prioritized, research-backed roadmap of web and mobile improvements, converting findings into scoped design work that engineering could execute.
- Redesigned PDP, PLP, and cart experiences, applying usability and personalization improvements that strengthened the end-to-end shopping journey and reduced known friction points.
- Led migration of the core design system from Adobe XD to Figma, rebuilding buttons, toggles, tooltips, pagination, and reusable patterns to improve team velocity and design consistency.

Senior UX Strategist, Medicare

Mar 2019 – Jul 2021

CVS Health / Aetna – Remote

- Designed the Shop, Buy, and Enroll experience for Medicare-eligible users (65+), using usability testing to simplify plan comparison, selection, and enrollment across widely varying levels of digital confidence.
- Drove accessibility and comprehension improvements (readability, content hierarchy, interaction clarity) supporting WCAG compliance alongside HIPAA and Medicare regulatory requirements.
- Facilitated research synthesis, persona, and journey mapping workshops in Miro with product, content, and compliance stakeholders, building shared understanding across a highly regulated domain.
- Iteratively refined IA and enrollment flows, improving plan selection completion rates and user comprehension across one of the most regulated consumer experiences in U.S. healthcare.

Senior Information Architect

Apr 2014 – Dec 2018

American Airlines – Fort Worth, TX

- Led information architecture for aa.com, mobile, and airport kiosks, defining user flows, wireframes, and interaction requirements for high-stakes booking and travel journeys.
- Redesigned Review & Pay and Finish booking steps, and led IA for Airside Mobile re-entry workflows, GDPR request portal (EU customers), and WePay integration on aa.com China, translating compliance and localization requirements into consistent, user-friendly flows.
